NOTES AND PRECIS.

Code put up

The Inspector of Schools has submitted proposals for payment of teaching grant on behalf of Indian Schools in the Station during the year 1934-35. Under Rule 34 of the Grant-in-Aid Code for Indian Schools the amount of grant earned by the Schools is calculated as follows:-

- (1) Half the excess over the approved recurring expenditure over the ^{fee} income, plus
- (2) loss in fee income on account of award of fee concessions, plus
- (3) Half the expenditure on account of scholarship and ^{fee} remissions limited to 10% of fee income.

The details of calculations of grants earned by different schools during the year are given in the front sheet attached to the financial statements of each school.

Now please see the statement attached to the Inspector's letter. Col. 4 of this statement shows the grant earned by the several schools and Col 5 shows the grant recommended. A comparison of the grant paid last year (Col 3) and the grant ~~recommended~~ recommended for payment this year (Col. 5) shows that in the case of (1) St. Joseph's Indian High School (2) Goodwill Girls' High School (3) St. Euphrasia's

Indian Girls' High School and (4) C.V.S. Sabha

Secondary School the grants recommended during the current year are more than the grant paid last year.

In the case of (1) R.B.A.N.M's High School (2) St.

Aloysius Secondary School and (3) Methodist Mission

Secondary School the grants recommended are the same

as these paid last year.

(3)

Comparing now the grants earned during the current year (Col. 4) and those recommended for

payment (Col. 5) it is seen that in the case of

R.B.A.N.M's High School and C.V.S. Sabha Secondary

School the grants recommended are considerably more

than the grant earned. The Inspector says that for the

reasons stated last year, namely that these schools

have no Missionary Society behind them to make good

any deficits which may occur, they may be given higher

grants. Rule 36(2) of the Grant-in-Aid Code provides

for such cases.

The grants recommended by the Inspector may be sanctioned. Draft submitted for approval.

To

The Secretary to the Hon'ble the

Resident in Mysore, Bangalore

Sir,

I have the honour to invite a reference to the Proceedings
of the Hon'ble the Resident in Mysore, No. 1919, dated 9-3-1934,
sanctioning teaching grants to Indian Secondary Schools for the
year 1933-34.

2. I am enclosing the financial statements, fee returns and
other subsidiary statements furnished by the schools. The rules
fixing the maximum and minimum scales of pay for the teaching staff
have been generally given effect to, although in a few cases
teachers have been paid at rates higher ^{in the scales} than their service warrants
This is because of prior agreements with managements drawn up under
orders from Government. The salaries of such teachers will,
however, remain stationary until their salaries are properly
adjusted to the Government scales. It was not considered equitable
in the case of certain other teachers with long service, and pay
above the Government scale, to order a reduction in their pay.
In the Goodwill Girls' High School, the two Missionary ladies are
jointly responsible for the school and in the special circumstances
of their case, I consider the salary of Miss Roper justified.
In those cases where I have disallowed certain expenditure on
staff on account of unjustifiable departure from the Government
scales, the total expenditure on salaries as shown in the

calculated

calculated statements will be found to be less than the corresponding figures in the financial statements.

3. A statement showing the grants earned by the Institutions, and the grants recommended to be paid during the year, is enclosed. The grants paid in 1933-34 have been shown in Col. 3 of the Statement and those earned this year in Col. 4. The grants recommended for each school are shown in Col. 5 of the Statement. To facilitate checking of these subsidiary statements which ~~are~~ ^{are} required by the Audit Officer, I attach a note ^x to this letter in explanation of these statements and the way they are used ~~in~~ calculating the grants. The method by which the grants have been calculated has been shown on a separate sheet attached to the Statements of each institution. Items disallowed by me have also been shown on the relevant statements.

4. It will be seen from the statement that (a) St. Joseph's Indian High School, (b) Goodwill Girls' High School, (c) St. Euphrasia's Indian Girls' High School and (d) the Methodist Mission Secondary School have earned more than the grants paid last year. I have not been able to recommend the payment in full of the grants earned, owing to lack of funds. But for schools (a) and (b) a small increase in the grant paid last year has been recommended. The considerably increased grant recommended for payment to St. Euphrasia's School is due to the opening of the VI Form last year. To school (d) the grant recommended for payment is the same as that paid last year.

5. It will be seen from the statement that the R.B.A.N.M.'s High School and the C.V.S. Sabha Secondary School have earned grants less than those paid last year. I again recommend that, under Art. 36(2) of the Grant-in-Aid Code for Indian Schools, higher grants than those earned should be paid, for the same reasons as I advanced last year in para. 5 of my letter No. 586/4-24, dated 27-2-34. The C.V.S. Sabha Secondary School in spite of considerable financial restriction does good work; and the R.B.A.N.M.'s

High School management have no source from which a deficit on the year's working can be met.

6. The advances already paid will be deducted when the grants are paid.

7. The expenditure will be debited to the allotment under the head "Account-II-Education-B-Secondary-Direct grants to Non-Government Secondary Schools-Direct grants to Secondary Schools" in the current year's Mysore Assigned Tract budget.

I have the honour to be,

Sir,

Your most obedient servant,

These statements have been lettered as follows:-

- These are all required by the Audit Officer.

Total admissible expenditure - Total income from fees.

(Compensation in respect of (J) is limited to 10% of the fee-income)

These have been shown on the relevant statements.

Statement K, is not used in the calculation and is only ^{useful} in ~~estimating~~ calculating the extent to which fees due have been realised. The income shown in K (excluding entrance fees) less loss of income under J should be the amount of fees collected. In every case

In every case this is less than the actual fee income shown in F. This is due to loss of fees from pupils leaving without transfer certificates in the middle of the term. In such cases fees due cannot be collected. This 'leakage' varies in amount from school to school and cannot be avoided.

Entrance Fees are excluded from 'actual income from fees' for purposes of calculation, but penal fees, which are imposed under authority are included.

Statement L is certified correct as required by the Audit Officer.

St Euphrasia's School did not charge the prescribed fees last year.

(they are doing so this year the matter having been brought to their notice) As the actual fees charged were lower than the prescribed fees, no compensation in respect of fee concessions has been allowed for this school. *The certificate of poverty is therefore not enclosed*

Goodwill Girls School has, in statements G and J, shown the loss in fee income in respect of girls who receive half-fee and full-fee concessions respectively. Under Rule 92 of the Madras Educational Rules all girls, irrespective of the community to which they belong are entitled to half-fee concessions above Form III and to full-fee concessions in Form III and below, subject to the poverty qualification. I have therefore added full compensation in respect of the loss of fee income shown in statement G, half compensation in respect of loss of fee income for Forms IV-VI in statement J, and full compensation for the loss of fee income for Forms III and below as shown in this statement.

All this loss of fee income is covered by the a certificate of poverty given by the Correspondent, except a sum of Rs.32 classed as 'courtesy concessions' by the Correspondent. This sum has been deducted from the compensation allowed.
